REPLY TO  
ATTN OF: TT

6 JUL 1971

SUBJECT: DOD-wide Air Intelligence Training Conference

10. See Distribution List

1. Air Training Command (ATC) will sponsor a DOD-wide Air Intelligence Training Conference at the Armed Forces Air Intelligence Training Center (AFAITC), Lowry AFB, Denver, Colorado 20-22 September 1971. The objectives of the conference are to review the current AFAITC training programs as they relate to missions/functions of the Services and Commands, identify and recommend changes in training programs necessary to support current and mid-range (FY72-75) intelligence operational requirements, and to discuss training objectives and requirements in the post FY75 time frame.
2. The last DOD-wide Air Intelligence Training Conference was held at AFAITC in March 1967. Since then major actions have taken place at AFAITC which warrant the interest of the DOD-wide intelligence community. Examples are implementation of the Environmental Training Facility providing AFAITC the most modern vehicle available for Intelligence Data Handling System training and a maximum capability to simulate intelligence problems, and establishment of separate basic air intelligence and imagery interpretation training courses for officers and airmen.
3. Since results of the conference will have a far reaching effect on air intelligence and imagery interpretation training, recommend that organizations be represented by the Director of Intelligence and/or his Deputy. Restricting participation to staff level policy makers will enhance the conference and greatly assist in achieving stated objectives.
4. In order to finalize conference arrangements, addressees are requested to submit names of conferees, their security clearances, and accommodation requirements to this Headquarters/TTMI, info Lowry/TDINI, by 1 August 1971. Comments/additional items regarding the proposed agenda (Atch 2) should also be included in your reply.

  
JOHN MURPHY, MAJOR GENERAL, USAF  
VICE COMMANDER
